

## **Alex Farkas**

Niagara University, Class of 2022

Major in Cyber Security

### **Impact of NYSGA Scholarship:**

“As a CIS major it is very important to have your own high powered computer which comes with a hefty price tag. The NYSGA scholarship has given me the ability to build the necessary computer that I need for my major and it gave me the ability to do this without a financial burden. As a CIS major we use programs that don't have the ability to run on a basic computer, as we need this programs to complete homework, and assignments. As this was a huge help from the NYSGA, besides helping me get the appropriate hardware for my major, it has also given me the ability to focus on my education and not worry where the money will come from to get textbooks and other necessary items for college. Any college student knows how much of a help scholarships are, and I will always be thankful for recieve one through the NYSGA!”
