

Elyse Maniccia

LeMoyne College, Class of 2023

Major in Political Science

Impact of NYSGA Scholarship:

“This scholarship helped to alleviate the cost of my textbooks. I took 21 credits during the spring semester and found the amount of money that I needed for textbooks to be very high. This scholarship helped me pay for those textbooks. This scholarship, as well as others, have made it so I do not need to work during the school year. Being able to have this free time allowed me to work as an intern for John Katko’s district office in Syracuse. This internship helped to teach me valuable life lessons as well as introduce me to the workings of a political office. I was also able to join both the LeMoyne crew and debate teams. Both clubs helped me to meet new people and experience new and exciting things! Academically I am a dean's list student and I enjoy spending time in the library with my roommate working on homework.”
