

Zackary Krotz

SUNY Polytechnic Institute, Class of 2023

Major in Mechanical Engineering

Impact of NYSGA Scholarship:

“This scholarship has allowed me to be able to attend a college that I may not have otherwise been able to attend. It allows me to be able to study and learn material that will benefit me throughout my career. I am very thankful to be receiving the scholarship and the opportunity that goes along with it. There are many things that I have been able to take part in on campus that has made me feel very excited to be gaining such an opportunity. Some of the things that I have been able to learn on campus I wouldn’t have been able to learn at a different location or time in my life. From the very important life lessons that come along with moving out of the house and living on my own, to many of the team work that I have done through my degree program so far. One of the most important aspects of attending college I feel is the people that you meet. So far in the two short semesters that I have completed I have made many bonds and memories that will stay with me throughout my entire life as well as career. I am very thankful for the opportunity to be a recipient of this award.”
